

GURRIMATUTE

Project Architect

Gurrimatute is seeking a Project Architect to join our team. The ideal candidate is a talented, highly motivated architect. This position will participate in the conceptual design and provide full support through the entire project. Communicate with the Project Manager, other architects/architectural staff, and consultants. Develop and represents lead technical designer on projects. Coordinates with the Principals and Project Managers on appropriate technical solutions and product strategies.

Job Responsibilities

- Direct report to the Project Manager
- Develop project zoning and building code calculations
- Assist to develop Life Safety calculations and drawings
- Develop and monitor man-hours for the tasks
- Prepare construction documents for permit using Revit
- Lead in-house junior staff; prepare “Red-Lines” as required
- Keep documentation accurate and current: Emails, RFI Logs, Shop/ Drawing Submittal Logs, Client Meeting Minutes, Field Inspection Reports, Transmittals etc.
- Codes/Guidelines: Florida Building Code, National Fire Protection Association (NFPA), & Florida Agency for Healthcare Administration (AHCA)
- Coordinate with engineering subconsultants on each project
- Identify additional services needed by the client
- All other duties as assigned

Essentials

- Develop quality designs and construction documents for permit.
- Be responsible and engaged in a project from conceptualization through project close-out.
- In-tune with new technologies and workflow processes
- Strong multi-tasking and time-management skills
- Spanish fluency preferred (but not required)
